June 10th John Arthur Jones. Infants
 Copy of Scripture Repott.

Owing to changes in the
 teaching staff and for other
 reasons this school has not
 been inspected for the last two
 years.

The general standard attained
 is satisfactory and there is
 evidence that subjects have
 been carefully and thoughtfully
 taught.

The repetition of the Catechism
 by the Infants was very good
 and though good marks
 were gained by them for old

and New Testament it might be better to shorten the special syllabus used and not attempt to cover quite so wide a ground in one year. I should like to see the Hayes Books subject taken by the Upper Classes. The general tone and discipline of the school are very good.
