2nd April

Received Salary Sheet, - (Form 50); + Circular 11 1928
also Form 9E, Enclosures A, + B.

Lady Graham visited.

Archdeacon Cory visited.

Criticism of lesson given by Miss Wousden P.T.

Techr

Voice, must be brighter, + more precise.

Manner - rather slack Tchr is not a sufficiently "live wire" in a drill class, & consequently chn are sleepy.

Position - not enough movement Tchr must teach the whole class.

Lesson

Commands - not brisk or definite enough.

In a new exercise, Tchr must explain what she wants it done.

Discipline - Fairly good.

General

For a first drill lesson this "attempt" was fairly good; but too many "breaks" were given; & tchr must learn that to drilling chn constructive criticism is necessary.

Empire Day. Children went to Church
at 9 for Service. Returned & had
lessons on the British Empire, & the
privileges & duties of British citizens.
This was followed by handwork
illustrating our talks, and at 11.30
we stood to attention, saluted the flag,
sang the National Anthem, and
other patriotic songs.

The afternoon was spent in Cricket
& Stool ball matches, with other games
for the little ones.

M^r Thompson, "

Report on Campsey Ashe School in respect of Religious Knowledge + teaching.

The School is in excellent order.

The teaching is animated + exact as well.

The correctness of passages committed to memory, prove the careful attention of the Staff.

The results in writing, by the upper Standards clearly show that the attention of the children has been caught. It is

evident that a conscientious method of imparting information and testing what has been acquired, is being employed through

331 1928

the whole school.

A noticeable + satisfactory result of this is provided by the Infants Department, J. Shadwell.

D. I.
