339 1929

Report on Campsey Ashe School in
respect of Religious Teaching + Knowledge.

If all the Schools in England were as well
managed & as enthusiastically taught we
should all enjoy many more Blessings
than we have already.

An earnest spirit of devotion is manifest
among all concerned and the results are
equally brilliant & satisfactory.

The children in the upper standards
sent up some carefully written M. S. S.
covering a wide range of Biblical
subjects, though the letters used in a good
many words were not the same as in the
text while resembling them in sound.

The Infant Class is quite as distinguished
as the others in reverence and accuracy.

J. Shadwell,
D. I.

11th May
1929.

May 17th Nurse visited. For the first time for some years a notice had to be sent to a mother re wits in a child's head.
