The Subjects of Religious Instruction in accordance with the Syllabus have only been taken since the appointment of the present mistress, Miss M. L. Goldsmith, in September 1908, but the school, notwithstanding, in every division passed an excellent examination. The Infants & Standard I in particular showed great brightness & intelligence in their answers due to the excellence of their training by Miss E. A. Seach the Assistant Teacher.

There is a marked improvement here, and the children are obviously deriving much benefit from the example & influence of the head mistress

The Assistant in the main room conducts her class in a way which proves how much can be done by loyal & conscientious attention to suggestions from those whom experience qualifies

The instruction, order & tone call for much praise.

Copy of Scripture Report. - April 20th 1910.

This school, with the exception of hesitancy in some of the answers to questions on the Old Testament passed a good examination in all subjects.

I am glad to find that special attention has been given by Miss Goldsmith to the moral & spiritual lessons contained in the selected portions of the New Testament, as evidenced by the intelligent answers of the children.

The Infants & Standard I answered brightly & intelligently. The general Tone & Discipline of the School are excellent.

Report of Instructor of Physical Exercises.

Report on Class Teaching:-

- a. Discipline - Good.
- b. Correctness of movements - Very fair.
- c. Word of command - Good, if time & tone were
 varied a little more.

Remarks:-

The Syllabus has been carefully studied
 the exercises are carefully done, but not

103 1910.

smartly. A great deal could be done to improve this if the time & time of the command were more varied. The games form an important part of the class, & the more agility movements introduced, the better, as they will do much to smarten up the class.
